

**We know...** patients love to talk to other patients, learn as much as possible about their disease, share their experiences & have a say in the things that affect them.

**We also know...** it's not easy to find other patients to connect with, find a local support group, source information & keep support groups going.

**Our aim is...** to help you! We are introducing new ways of meeting, helping you to access information and supporting the support groups.

**P**eople's Needs  
**P**atient Choice  
**E**very Voice
